

**Packaging**

Units are packed in carton boxes and the number of units per box is shown in figure 24. Carton boxes for larger shipments are packed onto Euro dimensioned wooden pallets (plastic on request).

Figure 24

The shown weight values depend on the type of unit packed into the box: the weight of capacitors is a function of the capacitance value of the capacitor (e.g. into the same can size a capacitor having a capacitance of 2200  $\mu\text{F}$  differs substantially from one having a capacitance of 10.000  $\mu\text{F}$ ).
